Today's output

Owners + shared boards.

- ☐ Rachel sprint: access, tools, first content cycle and event ownership.
- ☐ Update event commitments, content queue and the friend roster.

Blocker / decision / next action

End-of-day proof

Newsletter development: REC-449. First issue created and internally tested; public send date remains a decision.

WED / Sep 9, 2026

Two proposed focus blocks. Assign owners. Keep weekly app time for feedback fixes and buffer.

Joe's focus: _____

Ryan's focus: _____

☐ **A / Product spec**

Joint search acceptance. App lead defines event scope and newsletter opt-in.

Owner: _____ Time: _____ Evidence: _____

☐ **B / Editorial**

Train Rachel on tools and workflow. Choose scheduler and first pieces.

Owner: _____ Time: _____ Evidence: _____

Today's output

Spec draft + content queue.

- ☐ Rachel sprint: access, tools, first content cycle and event ownership.
- ☐ Update event commitments, content queue and the friend roster.

Blocker / decision / next action

End-of-day proof

Newsletter development: REC-449. First issue created and internally tested; public send date remains a decision.

THU / Sep 10, 2026

Two proposed focus blocks. Assign owners. Keep weekly app time for feedback fixes and buffer.

Joe's focus: _____

Ryan's focus: _____

☐ **A / Event options**

Event lead checks 2–3 concepts. App lead fixes triaged blockers.

Owner: _____ Time: _____ Evidence: _____

☐ **B / Brand build**

Rachel completes a content cycle. Finish site/list setup. Publish piece 1.

Owner: _____ Time: _____ Evidence: _____

Today's output

Shortlist + first live post.

- ☐ Rachel sprint: access, tools, first content cycle and event ownership.
- ☐ Update event commitments, content queue and the friend roster.

Blocker / decision / next action

End-of-day proof

Newsletter development: REC-449. First issue created and internally tested; public send date remains a decision.

FRI / Sep 11, 2026

Two proposed focus blocks. Assign owners. Keep weekly app time for feedback fixes and buffer.

Joe's focus: _____

Ryan's focus: _____

☐ **A / Scope gate**

Review P0/P1s, search, map performance and scope. Pilot survey. Forecast release.

Owner: _____ Time: _____ Evidence: _____

☐ **B / Brand launch**

Test site/list. Confirm Rachel's owned work. Publish piece 2.

Owner: _____ Time: _____ Evidence: _____

Today's output

Forecast + live brand links.

- ☐ Rachel sprint: access, tools, first content cycle and event ownership.
- ☐ Update event commitments, content queue and the friend roster.

Blocker / decision / next action

End-of-day proof

Newsletter development: REC-449. First issue created and internally tested; public send date remains a decision.

SAT / Sep 12, 2026

Optional buffer day. No required milestone.

Joe's focus: _____

Ryan's focus: _____

☐ Optional buffer

Use only for slipped setup work or creative asset gathering.

Owner: _____ Time: _____ Evidence: _____

Today's output

No required milestone.

Blocker / decision / next action

End-of-day proof

Newsletter development: REC-449. First issue created and internally tested; public send date remains a decision.

SUN / Sep 13, 2026

Optional buffer day. No required milestone.

Joe's focus: _____

Ryan's focus: _____

☐ Optional reset

Review replies and prepare Monday's work if useful.

Owner: _____ Time: _____ Evidence: _____

Today's output

Next week ready.

Blocker / decision / next action

End-of-day proof

Newsletter development: REC-449. First issue created and internally tested; public send date remains a decision.

MON / Sep 14, 2026

Two proposed focus blocks. Assign owners. Keep weekly app time for feedback fixes and buffer.

Joe's focus: _____

Ryan's focus: _____

☐ **A / Build**

App: events, opt-in and P0/P1 fixes. Event lead resolves shortlist gaps.

Owner: _____ Time: _____ Evidence: _____

☐ **B / Editorial**

Batch the week's assets and copy. Publish piece 3.

Owner: _____ Time: _____ Evidence: _____

Today's output

Build slice + weekly queue.

- ☐ Rachel: produce content and event assets; finish only residual setup.
- ☐ Update event commitments, content queue and the friend roster.

Blocker / decision / next action

End-of-day proof

Newsletter development: REC-449. First issue created and internally tested; public send date remains a decision.

TUE / Sep 15, 2026

Two proposed focus blocks. Assign owners. Keep weekly app time for feedback fixes and buffer.

Joe's focus: _____

Ryan's focus: _____

☐ A / Event choice

Choose concept and backup from feasibility evidence.

Owner: _____ Time: _____ Evidence: _____

☐ B / Production

Continue app build and bug fixes. Rachel advances production. Publish piece 4.

Owner: _____ Time: _____ Evidence: _____

Today's output

Concept + date candidates.

- ☐ Rachel: produce content and event assets; finish only residual setup.
- ☐ Update event commitments, content queue and the friend roster.

Blocker / decision / next action

End-of-day proof

Newsletter development: REC-449. First issue created and internally tested; public send date remains a decision.

WED / Sep 16, 2026

Two proposed focus blocks. Assign owners. Keep weekly app time for feedback fixes and buffer.

Joe's focus: _____

Ryan's focus: _____

☐ **A / App review**

Walk the event flow, search and map. Review P0/P1 fixes against acceptance.

Owner: _____ Time: _____ Evidence: _____

☐ **B / Commitments**

Confirm labor and equipment needs. Publish piece 5.

Owner: _____ Time: _____ Evidence: _____

Today's output

Issue list + event gaps.

- ☐ Rachel: produce content, build assets and advance owned event work.
- ☐ Update event commitments, content queue and the friend roster.

Blocker / decision / next action

End-of-day proof

Newsletter development: REC-449. First issue created and internally tested; public send date remains a decision.

THU / Sep 17, 2026

Two proposed focus blocks. Assign owners. Keep weekly app time for feedback fixes and buffer.

Joe's focus: _____

Ryan's focus: _____

☐ **A / Testing**

Test app, performance and opt-in. Prepare surveys and meeting slots.

Owner: _____ Time: _____ Evidence: _____

☐ **B / Newsletter**

Complete issue 1 and test delivery internally. Publish piece 6.

Owner: _____ Time: _____ Evidence: _____

Today's output

Test results + email ready.

- ☐ Rachel: produce content, build assets and advance owned event work.
- ☐ Update event commitments, content queue and the friend roster.

Blocker / decision / next action

End-of-day proof

Newsletter development: REC-449. First issue created and internally tested; public send date remains a decision.

FRI / Sep 18, 2026

Two proposed focus blocks. Assign owners. Keep weekly app time for feedback fixes and buffer.

Joe's focus: _____

Ryan's focus: _____

☐ **A / Release gate**

Review quality. Invite first friends if ready, then survey after meaningful use.

Owner: _____ Time: _____ Evidence: _____

☐ **B / Weekly proof**

First newsletter ready. Publish piece 7. Review event commitments.

Owner: _____ Time: _____ Evidence: _____

Today's output

Go/no-go + seven posts.

- ☐ Rachel: produce content, build assets and advance owned event work.
- ☐ Review survey responses and follow-up meeting status.
- ☐ Update event commitments, content queue and the friend roster.

Blocker / decision / next action

End-of-day proof

Newsletter development: REC-449. First issue created and internally tested; public send date remains a decision.

SAT / Sep 19, 2026

Optional buffer day. No required milestone.

Joe's focus: _____

Ryan's focus: _____

☐ Optional buffer

Handle replies or release support if needed.

Owner: _____ Time: _____ Evidence: _____

Today's output

No required milestone.

Blocker / decision / next action

End-of-day proof

Newsletter development: REC-449. First issue created and internally tested; public send date remains a decision.

SUN / Sep 20, 2026

Optional buffer day. No required milestone.

Joe's focus: _____

Ryan's focus: _____

☐ Optional reset

Check the coming week's queue and availability.

Owner: _____ Time: _____ Evidence: _____

Today's output

No required milestone.

Blocker / decision / next action

End-of-day proof

Newsletter development: REC-449. First issue created and internally tested; public send date remains a decision.

MON / Sep 21, 2026

Two proposed focus blocks. Assign owners. Keep weekly app time for feedback fixes and buffer.

Joe's focus: _____

Ryan's focus: _____

☐ **A / Feedback**

Review surveys and meet users. Build the highest-impact feedback fixes.

Owner: _____ Time: _____ Evidence: _____

☐ **B / Commitments**

Close date and venue dependencies. Publish piece 8.

Owner: _____ Time: _____ Evidence: _____

Today's output

Friend roster + venue state.

- ☐ Rachel: produce content, build assets and advance owned event work.
- ☐ Review survey responses and follow-up meeting status.
- ☐ Update event commitments, content queue and the friend roster.

Blocker / decision / next action

End-of-day proof

Newsletter development: REC-449. First issue created and internally tested; public send date remains a decision.

TUE / Sep 22, 2026

Two proposed focus blocks. Assign owners. Keep weekly app time for feedback fixes and buffer.

Joe's focus: _____

Ryan's focus: _____

☐ A / Event lock

Confirm required people, equipment and logistics for the date.

Owner: _____ Time: _____ Evidence: _____

☐ B / Publishing

Publish piece 9. Hold user meetings and turn evidence into app issues.

Owner: _____ Time: _____ Evidence: _____

Today's output

Commitment evidence.

- ☐ Rachel: produce content, build assets and advance owned event work.
- ☐ Review survey responses and follow-up meeting status.
- ☐ Update event commitments, content queue and the friend roster.

Blocker / decision / next action

End-of-day proof

Newsletter development: REC-449. First issue created and internally tested; public send date remains a decision.

WED / Sep 23, 2026

Two proposed focus blocks. Assign owners. Keep weekly app time for feedback fixes and buffer.

Joe's focus: _____

Ryan's focus: _____

☐ **A / Promotion**

Review event assets, signup route and lead-time calendar.

Owner: _____ Time: _____ Evidence: _____

☐ **B / App check**

Retest feedback fixes and map performance. Review opt-in. Publish piece 10.

Owner: _____ Time: _____ Evidence: _____

Today's output

Promotion plan + feedback.

- ☐ Rachel: produce content, build assets and advance owned event work.
- ☐ Review survey responses and follow-up meeting status.
- ☐ Update event commitments, content queue and the friend roster.

Blocker / decision / next action

End-of-day proof

Newsletter development: REC-449. First issue created and internally tested; public send date remains a decision.

THU / Sep 24, 2026

Two proposed focus blocks. Assign owners. Keep weekly app time for feedback fixes and buffer.

Joe's focus: _____

Ryan's focus: _____

☐ **A / Gap close**

Build remaining P0/P1 and feedback fixes. Event lead closes commitments.

Owner: _____ Time: _____ Evidence: _____

☐ **B / Newsletter**

Revise issue 1 from review. Prepare next content queue. Publish piece 11.

Owner: _____ Time: _____ Evidence: _____

Today's output

Named gap list.

- ☐ Rachel: produce content, build assets and advance owned event work.
- ☐ Review survey responses and follow-up meeting status.
- ☐ Update event commitments, content queue and the friend roster.

Blocker / decision / next action

End-of-day proof

Newsletter development: REC-449. First issue created and internally tested; public send date remains a decision.

FRI / Sep 25, 2026

Two proposed focus blocks. Assign owners. Keep weekly app time for feedback fixes and buffer.

Joe's focus: _____

Ryan's focus: _____

☐ **A / Weekly gate**

Review internal event lock and progress toward 30 friends.

Owner: _____ Time: _____ Evidence: _____

☐ **B / Brand proof**

Newsletter rehearsal complete. Publish piece 12. Review feedback themes.

Owner: _____ Time: _____ Evidence: _____

Today's output

Lock status + twelve posts.

- ☐ Rachel: produce content, build assets and advance owned event work.
- ☐ Review survey responses and follow-up meeting status.
- ☐ Update event commitments, content queue and the friend roster.

Blocker / decision / next action

End-of-day proof

Newsletter development: REC-449. First issue created and internally tested; public send date remains a decision.

SAT / Sep 26, 2026

Optional buffer day. No required milestone.

Joe's focus: _____

Ryan's focus: _____

☐ Optional buffer

Handle time-sensitive replies or beta support.

Owner: _____ Time: _____ Evidence: _____

Today's output

No required milestone.

Blocker / decision / next action

End-of-day proof

Newsletter development: REC-449. First issue created and internally tested; public send date remains a decision.

SUN / Sep 27, 2026

Optional buffer day. No required milestone.

Joe's focus: _____

Ryan's focus: _____

☐ **Optional reset**

Prepare the final three-day gap list.

Owner: _____ Time: _____ Evidence: _____

Today's output

Owners for remaining gaps.

Blocker / decision / next action

End-of-day proof

Newsletter development: REC-449. First issue created and internally tested; public send date remains a decision.

MON / Sep 28, 2026

Two proposed focus blocks. Assign owners. Keep weekly app time for feedback fixes and buffer.

Joe's focus: _____

Ryan's focus: _____

☐ A / Event + app gaps

Close outstanding event commitments. Verify beta access person by person and resolve critical issues.

Owner: _____ Time: _____ Evidence: _____

☐ B / Content

Publish piece 13. Rachel advances owned event work and October assets.

Owner: _____ Time: _____ Evidence: _____

Today's output

Final gap list with accountable owners.

- ☐ Rachel: produce content, build assets and advance owned event work.
- ☐ Review survey responses and follow-up meeting status.
- ☐ Update event commitments, content queue and the friend roster.
